CAJON box

CAJON box

ABOUT

CAJON is a captivating natural wood storage box that effortlessly blends aesthetics with functionality. CAJON isn't just a container; it's a carefully crafted piece that harmonizes both its interior and exterior, vastly expanding its potential applications. This remarkable creation seamlessly transforms from storage space to a versatile support, adapting flawlessly to your requirements.

Meticulously calibrated proportions ensure CAJON's adaptability across various scenarios, forming an optimized system of utility. Whether standing upright or positioned horizontally, used individually or as a set, the CAJON storage unit accommodates an extensive array of functions.

CARE AND MAINTENANCE

The following care instructions are recommendations only.

Wood

MOR seals its veneers with a natural varnish to highlight and protect the properties of the natural wood. For this reason, to clean solid wood and veneered surfaces, we recommend using a soft, slightly damp cloth, with a mild detergent in the case of stubborn dirt. To avoid stains and other damage, liquids should be wiped away immediately. We recommend that you always use environmentally friendly cleaning products and care for your furniture regularly and frequently. Before using any cleaning product, you should test it on an inconspicuous spot.

Wood reacts to the environment. Exposure to light can alter its colour and also adapt its own moisture content levels to that of its environment. In the case of excessive fluctuations in temperature and humidity, however, it reacts by cracking and warping.

WARNING

Do not use neat, harsh, strong or abrasive cleaning fluids or furniture polish containing silicone or abrasives. They most commonly contain unsuitable solvents and/or colour additives, which ultimately leave a coating that is very difficult to remove and may affect the colour and finish of the veneer surface. If possible, avoid rubbing the surface while cleaning it, as this will make matte finishes shiny and charge the varnish with static electricity which will attract more dust.
