FRAME Bench

FRAME Bench product sheet

FRAME collection is the perfect trio for any gathering space. The collection includes a table, a chair and a bench, holding everything one needs for a cozy get together. Being a simple yet sculptural and self-explaining design, the collection is meant to resemble a craft feeling, an ode to classic wooden furniture and handcrafting.

Inspired by the characteristics of Danish design, the collection impresses with its minimalistic shape and great attention to details. With simple but strong expression the FRAME pieces pay homage to the simple way of living culture and every step of it's production is aligned with requirements of sustainability and quality at the same time.

The bench has the same shape as the table. It can both be used with the table or separate, for sitting or as a long table for placing objects.
