PEDRA plate

PEDRA plate product sheet

Manuel Aires Mateus creates four elegant stone platters inspired by a simple, circular shape, with beautiful Estremoz marble stone grooved in a classic pattern. Its unique look is achieved by placing vertical grooves carved in its pristine surface, where everything can be placed and still be kept dry.

These platters can be used as a serving tray, an accent piece or even for displaying objects and will enhance any space.

VERSIONS

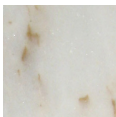

Available in a range of four sizes.

MATERIALS

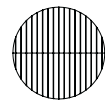

Marble from Estremoz (Portugal).
