

RGB Plus Tree Collection

Ornamentation Estimates

We suggest budgeting 17-20% of your RGB Tree's cost for its ornamentation. When selecting your ornamentation, keep in mind that RGB trees should be lightly decorated to allow your light show to shine through.

Our decorating experts recommend hanging 6-9 ornaments per branch and varying your ornamentation based on size, color, and texture for visual appeal. Specialty ornaments and embellishments including holly leaves, berries, and ivy are recommended but may increase your overall price.

Here are our suggestions for estimating your RGB Tree's ornamentation cost. The ornaments and labor cost reflects your starting price should you choose to have Dekra-Lite pre-decorate your tree.
