

10' Regal Illuminated Gift Box Instructions

1. Align the bottom half of the gift box over the bar on each round base and secure with (2) M8x50 hex bolts. Do this for each base.

2. Align the larger top section of the gift box over the bottom half and secure with (4) M6x40 hex bolts.

3. Attach the mini light connectors from the top and bottom sections.

4. Align the smaller top section of the gift box over the bottom half and secure with (4) M6x40 hex bolts.
5. Secure the two top sections together with (4) M6x40 hex bolts.

6. Attach the mini light connectors from the left and right top sections.

7. Align the bow over the gift box, making sure the connectors are on the same side, and secure the bow to each section with (4) M6x40 hex bolts.
8. Attach the mini light connectors from the bow and top section, and attach the connector at the bottom of the gift box to the 24V transformer.
