

12' Giant Candy Cane Instructions

NOTE: Pieces from other sizes and styles of candy canes are **not** interchangeable.

1. Attach the bottom piece of the candy cane to the base.
2. Lay the candy cane on its side.
3. Secure each of the screws with a washer and hex nut (provided).
4. Stand the candy cane up to attach the remaining sections.
5. Place the support pole in the opening of the bottom piece* of the candy cane.

*Note the letter or number carved into this piece. This must match the letter or number on the next section for a proper set-up.

- Align the middle section* of the candy cane over the bottom and slide onto the support pole.

*Note the letter or number carved into this piece. This must match the letter or number on the next section for a proper set-up.

- Place the second support pole in the opening of the middle piece of the candy cane.
- Align the top piece of the candy cane above the middle section and slide over the support pole.
