Model Number: **RLES6SS, RLES6WH, RLES9SS, RLES9WH, RLES61SS/WH, RLES91SS/WH**

Typical design

Features and benefits

- **High performance extraction fan**

High performance extraction fan rapidly removes steam, smoke and cooking smells from your kitchen. Three-speed switch lets you select the fan strength you need – half strength for steamed vegetables; full strength for stir fries.

- **Halogen lamps**

50 watt halogen lamps illuminate the entire cooking surface. Lamps are quick and easy to replace.

- **Multi-layered micromesh filters**

Multi-layered micromesh filters effectively trap grease. They're simple to remove and are easily maintained with a regular clean in the dishwasher.

- **Rectilinear design**

Simple styling makes cleaning easy. High quality stainless steel or powder coated steel and the fingertip controls are easy to clean with a damp cloth.

- **Thermal overload switch**

Thermal overload function that senses extreme heat and disconnects power to the motor temporarily. If you have a cooking disaster, and something catches fire, the rangehood automatically switches off to prevent flames and sparks being sucked into the ducting or ceiling.
