## 1 Hook Rake/Shovel/Cord Rack Instruction Manual

## contents:

- 1 - rack
- 2 - \#10 2" black screws, \#2 sq dr

## Setting Up Your 1 Hook Rake/Shovel/Cord Rack <br> CONFIRM THAT ALL PARTS ARE PRESENT BEFORE BEGINNING ASSEMBLY.

1. Find the stud. You can put this hook at whatever height you want.
2. Put the screws in the holes of the hook and fasten, ensuring the screws hit the studs.

Not to exceed 75 pounds.

## 3 Tier Wall Shelf, 48"

Instruction Manual for Sizes: $12^{\prime \prime} \times 48^{\prime \prime}$
| $16^{\prime \prime} \times 48$ " | 24 " $\times 48$ "

## contents:

- 42 - \#10 2" zinc screws, \#2 sq dr
- 3-48" shelves
- 6 - support braces
- 1 - liquid nail

## Setting Up Your 3 Tier Wall Shelf, 48"

## CONFIRM THAT ALL PARTS ARE PRESENT BEFORE BEGINNING ASSEMBLY.

1. Before you install the bracket, take the liquid nail, and make one line with liquid nail down the center between the mark and the outside edge.
2. You can attach the bracket at any height on the wall that you desire. Place the bracket with the glue side on the stud and put a screw in each hole. NOTE: If you have a sheetrock or OSB wall with studs that are not exposed, you'll need to put $2 \times 2$ or $2 \times 3$ or $2 \times 4$ s on the wall, so that you can attach the brackets to those. If you do so, make sure they are 4 foot on center.
3. Repeat steps $1-2$ for the second bracket, ensuring it is the same height as the first bracket.
4. Then, repeat steps 1-3 for the second and third levels of brackets.
5. Now, place the first shelf on the first pair of brackets. Make sure the shelf is even between the two studs. Make sure the shelf is the same spacing from the back of the shelf to the front of the shelf, beside the bracket. Then, you can place the screw in the front through the shelf into the bracket, or on the top through the shelf into the bracket. Finally, underneath the shelf, place a screw in the back of the shelf into each stud. Do this for all 3 shelves.

6. You can also cut the shelf shorter to fit into a space that does not allow for a 48" shelf
