A REVOLUTION IN TABLE TENNIS TRAINING

Win More Matches: if you want the best training for your players then FastPong is the solution for you

BENEFITS

- **Improve Players' Skills:** scientifically tested to improve reaction time, decision making, accuracy and tactical manoeuvring
- **Track Performance:** for players to understand their style, weaknesses, and strengths
- **Unique:** the only visual stimulatory training system on the market

ABOUT US

- We're FastPong, an award winning South Korean company specializing in new technologies to provide more effective **training for players of all levels, ages and abilities.**
- Our unique optimised training system combines hardware, software and data analysis to provide the best interactive training available today.

CONNECT YOUR DEVICE

- The mobile application enables players & coaches to track and analyse performance to determine progress, strengths and weaknesses.
- Customise your training programs, based on your individual metrics to form the basis for practice and training.

SCIENTIFIC STUDIES

Visual Stimuli Training:
more effective for improving reaction times, accuracy and decision making.
FASTPONG is the only device for table tennis players designed to improve COGNITIVE-MOTOR skills.

HARDWARE FEATURES

- Internal display (and optional external display) for a real-time view of results
- Large LED squares clearly show the target, and where the ball actually lands
- Save your data with our mobile application over Bluetooth
- Compatible with any ball shooter

EXTERNAL STIMULATION

BODY & BRAIN COORDINATION — PERCEIVE — PROCESS — REACT

OUTCOME — NEW & STRONGER NEURAL PATHWAYS — MORE MOTIVATION — MORE FOCUS
