

I Wished

Written By: Angeline Pompei

Theme: Souls, soulmates, loneliness, real vs imagination, hope, curiosity

If souls

Were high up in the sky

Would you come find me

Would you try

If souls exist

Outside our minds

Would you come find me

If I left signs

I wish, I wished

Upon a star

I wish you'd come

You are so far

Twinkling

High up in the sky

I sing myself

This lullaby
If I was lost
Could I be found
Follow my scent
Or secret sound
I wish, I wished
Upon a star
I wish you'd come
You are so far
Twinkling
High up in the sky
I sing myself
This lullaby

Lost souls, are looking for a home, a home of their own

Home is where, my heart wants to go

I wish, I wished
Upon a star
I wish you'd come
You are so far
Twinkling
High up in the sky
I sing myself
This lullaby

Twinkle Twinkle

You're so bright

I wish again this starry night
