

# DESIGN YOUR OWN PRECISION

As of 2008- we use these colors as standard  
(can change at any time)

Colors on screen can vary from real colors

We also have Reflex paints available  
(not included in standard price)  
red/orange/pink/green/blue/yellow

## Note:

All reflective colors and "rallye red"  
are made up of two layers  
(white color plus reflective color).

This increases the weight of the model.

|                                                                                    |                         |
|------------------------------------------------------------------------------------|-------------------------|
|   | RAL 9017 BLACK          |
