

WELCOME TO THE WORLD OF FRANCK & FISCHER

FRANCK & FISCHER was founded 10 years ago by designer Annemarie Franck and economist Charlotte Fischer. We believe in creating stimulating, practical toys and modern interior products for your children.

The products are designed with a Danish flair that puts a smile on your face.

Fall in love with our colourful prints, toys and backpacks, all decorated with our unique patterns of characters from the world of FRANCK & FISCHER.

For us, caring for others and the environment is essential. This ethos is carried through into all our working practices: Virtually all of FRANCK & FISCHER products are made from certified organic cotton. This means that the cotton has not been treated with pesticides, or any other chemicals, during the growing or manufacturing stage. It ensures the health and safety of your child, the workers in the field and the environment.

It also means that we choose to produce our goods only in factories, which comply with the strictest of practices and where employees do not work in harmful conditions.
