

8601 Staticide® Electronics Cleaner Degreaser PF

Powerful Universal Cleaner Degreaser

Electronics Cleaner Degreaser PF is a fast-drying, one-step precision cleaning and degreasing agent safe for most plastics. Formulated with very low surface tension, this high-pressure aerosol cleaner flushes even hard-to-reach areas clean without leaving residual film.

The short residence time allows this powerful universal cleaner to evaporate instantly, leaving surfaces free from insulative contaminants.

Directions:

To clean, spray surface from a distance of 4-6 inches. Apply cleaner from top to bottom, allowing liquid to flush away flux residues, dirt, and oil. Special valve allows for 360° spraying.

For industrial use only.
Read SDS carefully prior to use.

Material Compatibility:

ABS	Good
Buna-N	Good
EPDM	Excellent
Graphite	Excellent
HDPE	Fair
Kynar™	Fair
LDPE	Fair
Lexan™	Fair
Neoprene	Fair
Noryl	Good
Nylon™ 66	Excellent
Cross-linked PE	Excellent
Polypropylene	Good
Polystyrene	Non-compatible
PVC	Good
Silicone Rubber	Non-compatible
Teflon™	Excellent
Viton™	Excellent

Ideal for the following applications:

- Removing oils and hydraulic fluids from mechanical assemblies
- Cleaning handling soils from circuitry before reassembly
- Removing grease from assembly lines
- Test / measurement devices, switches, fiber optic cable splices
- Control systems, precision devices, stencils, and screens

FEATURES:

- ❄️ **Flammable**
- ❄️ **Safe for plastics**
- ❄️ **Evaporates quickly; non-residual**
- ❄️ **Low odor**
- ❄️ **Penetrates challenging-to-reach areas**
- ❄️ **Best choice for removing grease, oil, and other contaminants**
- ❄️ **RoHS compliant**
- ❄️ **No CFCs, HCFCs, or 1,1,1 Trichloroethane**
- ❄️ **Made in USA**

Product# 8601

12 oz (340g) aerosol / 12 per case
