

fabric

- Front: breathable microporous film fabric
Back: SMS fabric, 65g/m²
- Greater breathability, soft and drapable

design

- Key-Tec COOL coverall is a new innovation made up of a microporous film laminate fabric on the front and SMS on the back to increase comfort through greater breathability in warmer work environments. Seams are over-locked to a standard 7 +/- stitches per inch; elasticized hood, cuffs, back and ankles; zip front; zip storm cover flap with self-adhesive tape; serge seams
- Keyguard Coverall w/blue SMS back with elastic wrists and ankles

protection level

Key-Tec COOL Coveralls meet the following European norms:

- TYPE 5 EN ISO 13982-1[2] Dry particle suit
- TYPE 6 EN13034 Reduced spray suit
- EN 1149-5 Anti-static
- EN 1073-2 Barrier to radioactive particulates – Class 1

CE Category 3

The special design of Key-Tec COOL Coverall is guaranteed to offer protection without compromising comfort. It does so with optimized body fit and increased range of movement.

- Better breathability — ideal for those working in warmer environments
- Thicker weight fabric ensures better mechanical strength
- Provides a strong barrier against particulates such as asbestos, brick dust and cement dust. Protects from light aerosol mists
(Not suitable for heavy liquid splashes or sprays in wet environments.)

applications

- Pharmaceutical and Food Mfg.
- Painting, Spraying, Asbestos abatement sites
- Electronic assembly and installation
- Mining wood and metal processing
- Industrial Mfg, maintenance, furniture manufacturing
- Research and clinical facilities

SIZES AVAILABLE

Small – 5XL

COLORS AVAILABLE

white and blue

COUNTRY OF ORIGIN

China

PACKAGING

1 piece/bag; 25 bags/case
