## Direct Container Program Terms and Conditions

### **TERMS:**

Direct container prices listed are FOB port of origin and are exclusive of freight charges.

Freight costs to final destination are the responsibility of the customer. Campania shall provide customer with an estimated freight quote prior to order approval. However, actual freight costs fluctuate and cannot be guaranteed prior to shipment. Any freight quote is for informational purposes only. Final freight costs will be invoiced to customer after delivery.

Customers shall have the option to arrange their own freight. When customer so elects, ownership of goods shall pass to customer upon delivery to shipper at port of origin and all applicable costs for shipment including but not limited to freight, import duties, insurance and customs examination, if required, shall be the responsibility of the customer.

If Campania arranges freight, Campania assumes the risk of transport until product is delivered to customer. In such event, customer will not be charged for customs inspection if required. However, customer assumes the risk of breakage up to 3% of the value of products shipped.

Due to the particular configuration of products to be packed on a container, final quantity of products shipped may vary.

Customers with established credit terms are eligible for 6/20/2025 terms upon satisfactory credit approval by Campania. Otherwise, partial payment shall be required prior to placement of order with factory.

Invoices with 6/20/2025 terms are required to be paid by check.

Campania cannot guarantee delivery dates in the event of natural or political occurrences, or governmental regulations which impact or prevent production and/or shipment of goods.

Campania International's hand-made terra cotta and glazed pottery collections may be subject to deviations with respect to firing, color, size and surface crackling. These are deemed natural occurrences in the organic materials and traditional, hand-crafted method of production and are not defects. Because our products are handmade and may be fired in traditional kilns, the final color of products will vary.
