Appropriate engineering controls

Engineering Controls Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapor and mists below the applicable workplace exposure limits (Occupational Exposure Limits-OELs) indicated above. Emergency eye wash fountains and safety showers should be available in the immediate vicinity of use or handling.

Individual protection measures, such as personal protective equipment

Eye/face protection Wear chemical splash goggles and face shield when eye and face contact is possible due to splashing or spraying of material.

Skin and body protection Select glove material impermeable and resistant to the substance. Suitable gloves can be recommended by supplier.

Respiratory protection Respiratory protection should be worn when there is a potential to exceed the exposure limit, applicable exposure limit requirements or guidelines, use a NIOSH-approved respirator.

General Hygiene Considerations Wash hands before breaks and at the end of work. Avoid contact with skin, eyes and clothing. Wash contaminated clothing before reusing.
