

POWERED BY SATIC TECHNOLOGY

SATICPULSE – LED

- *Low Harmonics & EMFs*
- *Flicker & Strobe Free*
- *Lower Power Consumption*
- *Natural Full Spectrum Light*
- *High Power Quality & Long Life*

Only 9W for a 60W Equivalent Lamp

*Better light & living with Satic's
Quantum Photon Technology*

SATICPULSE – LED

Full Spectrum

Warm or Cool White Lighting

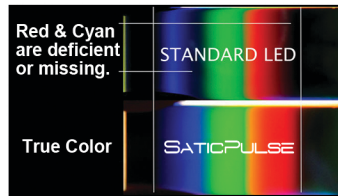

Low Harmonic Distortion

Reduced harmful THD & EMFs

Quiet Operation

Silent & Buzz free

High Color Index Rating

See clearly & No eye fatigue

A19

BR30

SaticPulse Quantum Photon LED Technology is unequalled in the marketplace with high power factor, lowest THD and EMF with the highest efficiency rating available. They use less amps than comparable LEDs while producing more light of superior quality.

9W A19 LED Specifications

Lumens: 900
Color Temp: 2700K or 4000K
CRI: >80/90

Driver: Low EMI
Voltage: 110-130V
THD: <1%

Rated Power: 9W
Power Factor: >.90
Beam Angle: 300°

12W BR30 LED Specifications

Lumens: 1200
Color Temp: 2700K
CRI: >80/90

Driver: Low EMI
Voltage: 110-130V
THD: <1%

Rated Power: 12W
Power Factor: >.90
Beam Angle: 120°

Looks Better, Lasts Longer & Saves Money!

See Better: Enhanced colors to see hair/makeup, food, clothing and art

Feel Better: Improves mood with less fatigue, depression and eye strain

Live Better: Produces healthier environment for humans, plants and pets

Full Spectrum Light has been clinically proven to provide many of the benefits provided by natural sunlight, such as better visibility, improved health and greater productivity.
