## COVERT QR6 PRO

**EDGE TAPER** | The angular edge taper drives flex energy through the hosel that magnifies power and quick release. Our unique geometry improves response and is more stable and plays stronger.

**EDGE BLADE** | New redesigned blade technology featuring a unique shape where the blade meets the ice. The Edge Blade design engages the stick like never before making it even easier to load for quick release shots. Our lightweight polymer blade core wrapped with Minimus Carbon 25, enhances puck feel and reduces blade fatigue.

**MINIMUS CARBON 25** | A flat spread-tow material that optimizes strength by reducing fiber crimp and deformation in the composite layering. The custom weave is thin and light, yet extremely strong and resistant to damage.

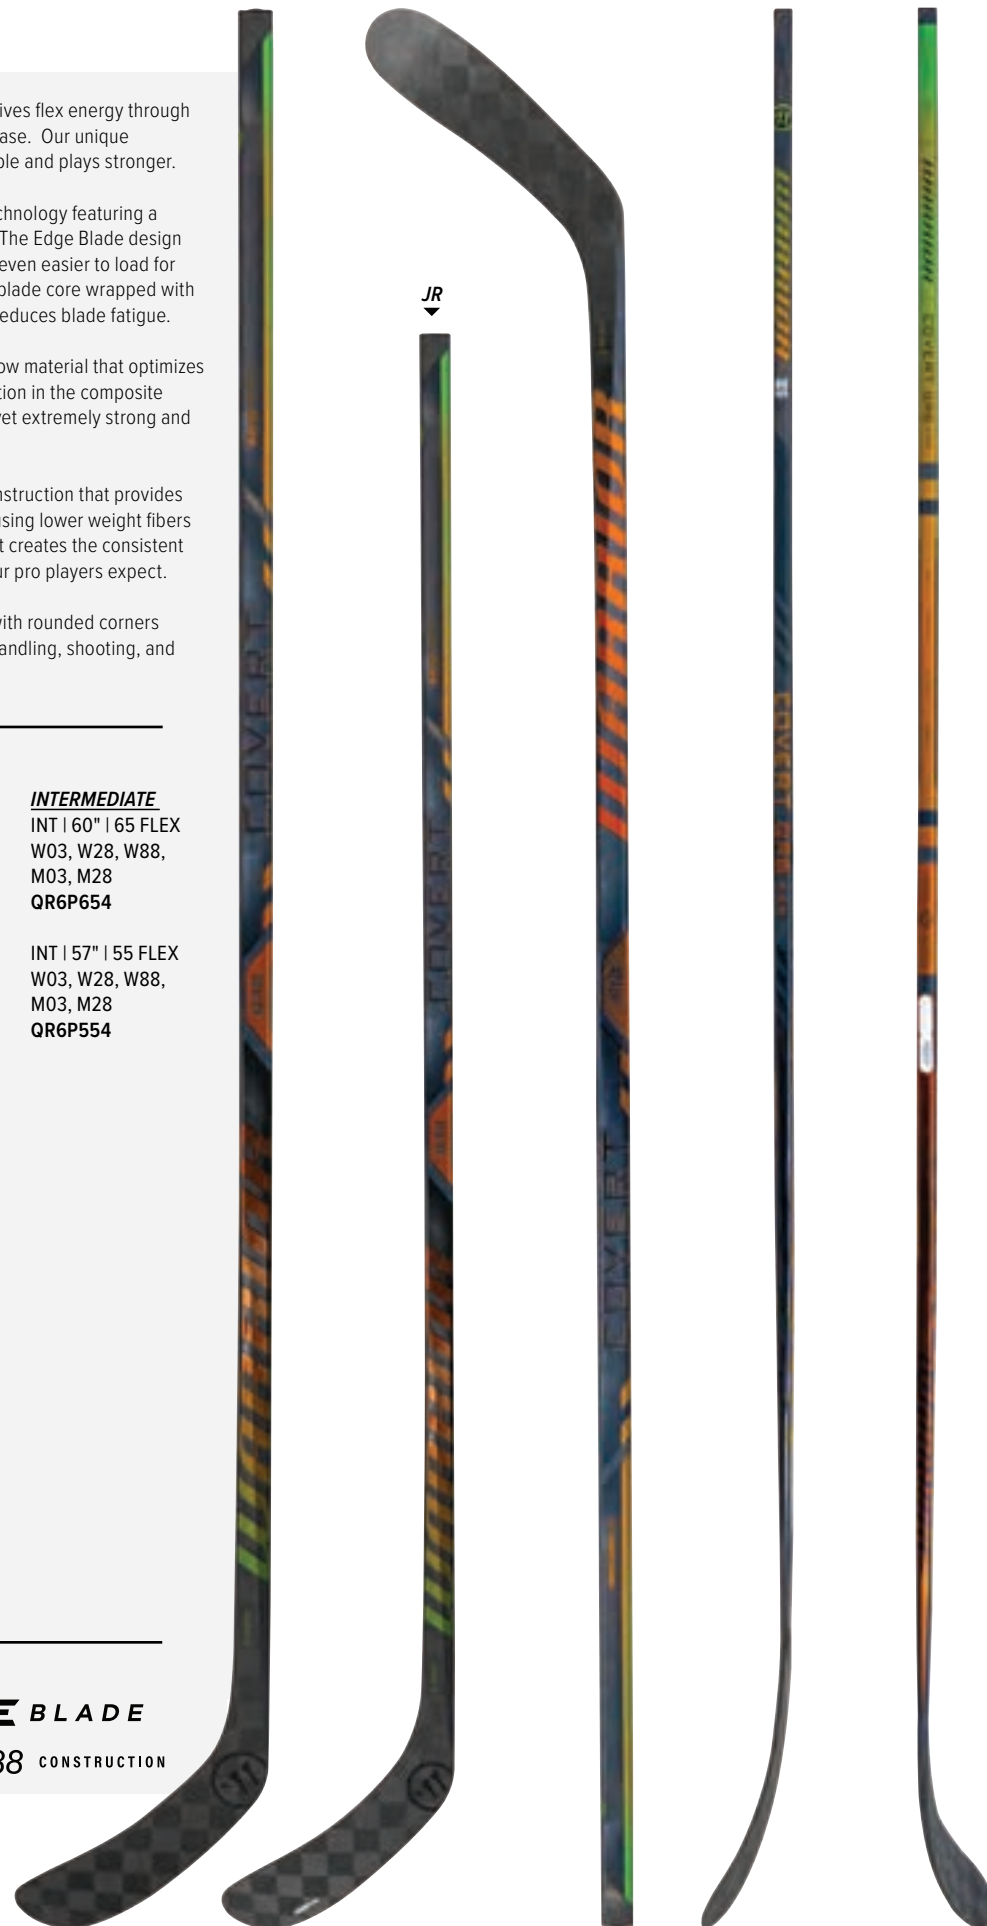

**P. L. 188** | A completely re-engineered construction that provides improved durability and weight reduction by using lower weight fibers and thermoplastic-toughened epoxy resin that creates the consistent level of balance, weight, and durability that our pro players expect.

**D. G. SHAFT SHAPE** | Flat side walls with rounded corners provides consistent feel and control for stickhandling, shooting, and passing.
