

BAUER
TEAM UNITY '23//

BAUER

WHAT IS TEAM UNITY?

Bauer has developed a program that is committed to outfitting individual teams and associations both on and off the ice to create a unified look. By providing a one-stop solution, this program is now easily accessible to all levels and age groups looking to build their identity and elevate their game.

SIZING CHART: SIZING AND CERTIFICATION

BAUER HELMETS AND COMBOS (Measurements in US Standard & Metric)

Fitting

1. Open helmet to its largest setting and position on the head so that the front edge of the helmet is one finger width above the eyebrows.
2. Slide the front and back portions of the helmet together until a comfortable, snug fit is achieved.
3. Tighten the adjustment mechanism.

Players should only use CSA, HECC and CE certified helmets. These helmets have stickers affixed that indicate their compliance with the applicable standards.

CUSTOMIZER LOGO REQUEST

A HOW TO SUBMIT A LOGO

When submitting a logo for a team's locker, the logo must be in a vector format (e.g.: .Ai / .Eps / .Pdf). The logo within this file should be converted to vectors and be an editable file.

To submit a logo, please fill out the logo request form and email to: logorequests@bauer.com

B COLOR SPECIFICATIONS

During the logo submission process, team colors need to be clearly specified. Our customizer offers a wide range of colors so in order to make sure that team colors are correct, they need to be submitted properly.

When filling out the logo request form, please identify the team's colors by name or by using the Pantone number, if available, in the notes section. Pantone numbers are preferred as they are the industry standard for the color matching process.

Please note: colors on screen may look different than physical samples. To ensure a close match, please try to provide as much information as possible when submitting logos so that we can do our best to match the team's colors and expectations.

i) UNACCEPTABLE FILES

Non-vectorized artwork is not ideal due to the fact that they are generally low resolution and become blurry / pixelated when scaled up

NON-ACCEPTABLE FILES

.JPG / .BMP / .GIF / .TIFF / .PNG

i) ACCEPTABLE FILES

Vector artwork allows you to scale an image to any dimension without loosing any quality.

ACCEPTABLE FILES

.AI / .EPS / .PDF / .SVG
