

Outdoor Living

Outside patios are great for dining and entertainment.

However, when it's too cool in the shade or just not warm enough, wouldn't it be great if you could heat the area to enjoy the outdoors?

Extend your patio use throughout the cooler seasons when you provide portable heaters for your customers, or for the home deck...

Comfortable heat that is economical and easy to setup and use.

Portable Warmth for the Outdoors

One of the best solutions available to restaurants, rental companies, event planners and homeowners. There isn't anything on the market as lightweight and durable as the portable Zubri™ heater! The Zubri™ portable heater comes with a carrying case and reflector bag for easy transportation.
