OSHA Compliant Circulation Fans

At Schaefer, safety and performance go hand-in-hand. Nothing speaks to that more than our OSHA compliant circulation fans, which meet all OSHA safety regulation while delivering maximum airflow. These 2-speed fans have the versatility to be mounted on a ceiling, wall, pedestal or cart, which makes them the ideal cooling solution for any commercial, industrial or agricultural facility.

Features & Benefits

- Blade and direct drive motor are strategically matched to provide the highest achievable levels of airflow. Rated up to 12,000+ CFM!
- High quality motors and powder coated guards provide the durability a fan needs for years of use.
- Designed to be extremely energy efficient for additional cost savings! Draws as little as 1.6 amps!
- Thermally protected, heavy-duty, 2-speed motors are maintenance free with a long life.
- Can easily be attached to a cart or pedestal for portability or mounted to a wall or ceiling.

Coming Soon: "Import Beater" Circulation Fans

In the fall of 2013, Schaefer will be introducing a family of high quality, but lower cost, circulation fans for customers who want the durability and reliability of Schaefer's made-in-America fans but want to pay a lower up-front price. These 12", 20", 24", 30" and 36" fans have slightly lighter guards and motors and produce 5% to 10% less air movement than the top-of-the-line Schaefer circulation fans but at about 25% lower cost. These future best sellers will be available in limited quantities in September 2013 and in production quantities in 2014.
