

SIGHT MARK®

AAT5G Pressure Pad

SPECIFICATIONS

Use With	SM13036
----------	---------

FEATURES

- ⊕ Momentary on/off function
- ⊕ Saves battery life

The **Sightmark AAT5G Pressure Pad** provides the shooter with convenience and allows the shooter to absorb all the benefits of the AAT "The Brick" green laser designator. Simply attach the end of the pressure pad to the laser designator and run the chord along the magazine or quad rail. With the Sightmark AAT5G Pressure Pad, the shooter can keep their hands on the gun while perfecting his or her shot.

The shooter simply stays focused on the target, squeezes the pressure pad to turn the laser on and off while lining up the shot, and fires. By squeezing the pressure pad on and off, the shooter can save battery life and keep his or her attention focused on the target. The Sightmark AAT5G Pressure Pad is protected by the Sightmark Limited Lifetime Warranty and the quality that comes with the Sightmark name. Sightmark-Make Your Mark!
