- LOCKING QUICK-DETACH MOUNT FOR QUICK AND EASY REMOVAL
- EXTERNAL WINDAGE/ ELEVATION ADJUSTMENT
- FLIP-TO-SIDE MOUNT PROVIDES RAPID TRANSITION
- COMPATIBLE WITH MOST RED DOT

The ideal magnifier should be lightweight, durable, and user friendly. The Sightmark XTM 3 magnifier is a prime example of an optic that fulfills all three criteria. When compared to its closest rivals, such as the Vortex Micro3x and Sig Sauer Juliet3 Micro 3x, the XTM 3 is more than an ounce lighter while providing the same magnification power. It offers a comparable angular field of view and IPX7 waterproof rating to its Sig Sauer counterpart, all at a more affordable price point than the closest comparable Vortex model. Notably, the Sightmark XTM 3 distinguishes itself with a more ergonomic flip to side mechanism, setting it apart from the push press flip of rival models. The Sightmark XTM-3 magnifier excels as an exemplary optic that embodies the essential qualities of a great lightweight magnifier.
