The Sightmark Element 1x30 is a 2 MOA red dot sight, ideal for use on AR-style rifles and shotguns. The Element features a clamp mount, reducing bulk and creating a streamlined design. The Element also boasts useful adjustment caps that can be flipped and used as tools for making windage/elevation adjustments. A compact aluminum alloy housing keeps the Element 1" shorter than the competition and provides durability. The Element is also waterproof and shockproof, night vision/magnifier compatible and features 100-15,000 hours of battery life on one CR2032 battery.
