- Calibrated for precision
- Durable brass construction
- Saves costs on ammo

.30-06, .270, .25-06 BORESIGHT

SPECIFICATIONS	SM39053
Laser wavelength (nm)	632-650
Output power (mW)	<5
Battery type	internal rechargeable
Battery life (hours)	1
Full recharge time (hours)	1
Range for sighting (yards)	15-100
Dot size (inches @ 100 yards)	2
Operation	auto-activation
Construction	brass

Chamber the new Accudot Red Laser Boresight in your .30-06, .270 or .25-06 rifle just like a regular cartridge and make the proper adjustments to get your rifle on paper with the first shot. The easiest way to zero firearms, Accudot Boresights feature a rechargeable, internal Lithium-Ion supercapacitor and auto-activation on. Both of these features combine to save you money on hard-to-find batteries and improve the life of your rechargeable batteries. Their durable brass construction improves overall chambering/ejection and a calibrated diode ensures pinpoint accuracy from the boresight. Extremely easy to pack and travel, the Accudot .30-06 Boresight includes recharging dock, USB cable, wall adapter and carrying case.
