The Sightmark SS3000 Tactical Spotlight is a dual use, high-output spotlight designed for use on high-caliber firearms, or as a hand-held unit when detached. The powerful SS3000 features an efficient yet powerful LED system that gives the unit a longer life, and produces 3,000 lumens of blinding light that pierces the darkness hundreds of yards out. Since the unit can be used both weapon mounted or hand held, it is ideal for law enforcement and tactical applications, as well as for hunting by utilizing its bonus red lens filter.
