Use bottle collar adaptor (supplied with Opticare) to ensure secure fit inside Opticare.
* This bottle is more rigid than many. Insert bottle into Opticare with the top removed and flat side first.
** Aid available from MSD.

Opticare eye drop dispensers are compatible with traditionally shaped bottles.

Our aids cannot be used with multi-dose preservative-free bottles with a wide neck.

For use with these bottle types: traditional eye drop bottles (large and small)
