

# OUR STORY

Mara Coffee is an independent black-owned speciality coffee company founded in 2020 and based in the UK. Each month Mara Coffee takes their customers on a taste discovery across Africa to explore the finest coffee on the planet.

Founded by two coffee lovers (Hass and Serina) from different parts of the world that share a passion for travelling and a deep connection to Africa. Through their many travels, they've had the opportunity to discover an array of high-grade arabica coffee and tea that opened a door to the abundance of exceptional varieties that have not been enjoyed by many.

The word Mara originates from the Maasai language meaning 'spotted'. This resonates with their mission to source the best of the known and unknown coffee regions across Africa to provide a coffee experience you can't live without.

Mara Coffee pledges to plant a tree for every purchase on their website. With each cup you are not only supporting the farmers that grow it but helping to restore our ecosystem one tree at a time.
