To close the filter chamber

Replace the gasket

Position the indentation in the cover into the center of the HEPA filter

Replace the 4 screws and tighten

Turn the Airpura back onto its casters

Thank You for choosing an Airpura High Efficiency Air Purifier
To bring you the benefits of clean indoor air

To Begin Using Your Airpura...

- Inspect the exterior of your Airpura to verify there is no damage from shipping. If any damage is noted please follow the instructions in the Airpura returns policy.
- Wipe the unit with a damp cloth to remove any dust from packaging
- Plug the unit into a regular grounded 110 volt outlet
- Turn on the unit to MAX and allow it to run for a few minutes
- Set the variable speed control to the level you wish
- The most efficient way to use your Airpura for regular air quality maintenance is to run it at a low speed 24 hours a day 7 days a week

Feel the difference breathing clean air makes to your health

Airpura Limited Warranty

5 years on parts and 10 years labor
See www.airpura.com for details
Filter Maintenance and Replacement

The Pre-Filter
- Can be vacuumed from the exterior of the unit once a month or more often.
- Should be replaced at least after 12 months of use.
To vacuum the pre-filter
- Use the brush attachment on your vacuum cleaner.
- Vacuum slowly around the mesh surface of the filter chamber.

The HEPA Filter
- Should be replaced as required; at least every 5 years of residential use.

To open the filter chamber
- Turn over the Airpura.
- Remove the 4 retaining screws.
- Take off the cover.
- Remove the gasket.
- Position the pre-filter inside the filter chamber.
- Place a felt gasket at the bottom of the filter chamber.
- Unfold the filter slider (Supplied with replacement filters or on request Part#6F 001).
- Roll it into a spiral.
- Insert the tube into the filter chamber inside the pre-filter.
- Let the spiral open to fill the opening.
- Open the top of the spiral to make a slight funnel.
- Insert the Hepa filter into the funnel and hold it straight.
- Let the filter slidewon the filter slider.
- Pull the filter slider up out of the cavity using both hands and let the filter slide to the bottom of the cavity.
- Remove the filter slider and fold it for further use.

See over for closing the filter chamber.
