Thank You for choosing an Airpura High Efficiency Air Purifier
To bring you the benefits of clean indoor air

**Operating & Filter Replacement Directions**

To Begin Using Your Airpura...

- Inspect the exterior of your Airpura to verify there is no damage from shipping. If any damage is noted please follow the instructions in the Airpura returns policy.
- Wipe the unit with a damp cloth to remove any dust from packaging.
- Plug the unit into a regular grounded 110 volt outlet.
- Turn on the unit to MAX and allow it to run for a few minutes.
- Set the variable speed control to the level you wish.
- The most efficient way to use your Airpura for regular air quality maintenance is to run it at a low speed 24 hours a day 7 days a week.

**Airpura limited warranty**
5 years on parts and 10 years labor
Details on line at www.airpura.com

To close the filter chamber:

- Replace the gasket
- Position the indentation in the cover into the center of the HEPA filter
- Replace the 4 screws and tighten
- Turn the Airpura back onto its casters

**Replacing the UV Bulb and TitanClean™ Reflector**
- Open the filter chamber following the instructions on page 2
- Snip off the plastic retainer (for shipping only: does not need to be replaced)
- Unscrew the 2 retaining screws of the reflector
- Pull the bulb and reflector together upward out of the connector
- Push the replacement bulb firmly into the connector
- Place the reflector around the bulb and replace the retaining screws
- Close the filter chamber following instructions on page 4
Filter Maintenance and Replacement

The Pre-Filter
- Can be vacuumed from the exterior of the unit once a month or more often.
- Should be replaced at least after 12 months of use.

To vacuum the pre-filter
- Use the brush attachment on your vacuum cleaner
- Vacuum slowly around the mesh surface of the filter chamber

The Activated Carbon Filter
- Should be changed as needed in heavy applications and at least every 24 months in normal use.

The HEPA Filter
- Should be replaced at least every 3 to 5 years of normal use.

To open the filter chamber

To close the filter chamber:
- Slide in the HEPA filter
- Let the canister slidetown the filter slider
- Pull the filter slider up out of the cavity using both hands and let the canister slide to the bottom of the cavity
- Remove the filter slider and fold it for further use
- Slide in the filter chamber
