Thank You for choosing an Airpura High Efficiency Air Purifier
To bring you the benefits of clean indoor air

To Begin Using Your Airpura...

- Inspect the exterior of your Airpura to verify there is no damage from shipping. If any damage is noted please follow the instructions in the Airpura returns policy.
- Wipe the unit with a damp cloth to remove any dust from packaging.
- Plug the unit into a regular grounded 110 volt outlet.
- Turn on the unit to MAX and allow it to run for a few minutes.
- Set the variable speed control to the level you wish.
- The most efficient way to use your Airpura for regular air quality maintenance is to run it at a low speed 24 hours a day 7 days a week.

Feel the difference breathing clean air makes to your health.

Airpura Limited Warranty
5 years on parts and 10 years labor
See www.airpura.com for details
Filter Maintenance and Replacement

**The Pre-Filter**
- Can be vacuumed from the exterior of the unit once a month or more often.
- Should be replaced at least after 12 months of use

To vacuum the pre-filter
- Use the brush attachment on your vacuum cleaner
- Vacuum slowly around the mesh surface of the filter chamber

**The Activated Carbon Filter**
- Should be changed as needed in heavy applications and at least every 24 months in normal use.

**The HEPA Filter**
- Should be replaced at least every 3 to 5 years of normal use

To open the filter chamber
- Turn over the Airpura
- Remove the 4 retaining screws
- Take off the cover
- Remove the gasket

Position the pre-filter inside the filter chamber
Place a felt gasket at the bottom of the filter chamber
Unfold the filter slider (Supplied with replacement filters or on request Part#6F 001)

Insert the tube into the filter chamber inside the pre-filter
Let the spiral open to fill the opening
Open the top of the spiral to make a slight funnel
Insert the carbon canister into the funnel and hold it straight

Let the canister slidewon the filter slider
Pull the filter slider up out of the cavity using both hands and let the canister slide to the bottom of the cavity
Remove the filter slider and fold it for further use
Slide in the Hepa filter
See over for closing the filter chamber
