  - Unplug power cord and wrap cord neatly inside the Safe Storage.
  - Thoroughly clean your Purio.
  - Use the brush attachment on your household vacuum cleaner to vacuum any accumulated dust on Purio or wipe down the entire surface with a soft cloth. You may also use a can of compressed air for debris.
  - Cover, or place Purio back into retail carton if available. This will prevent Purio from accumulating dust over time.
  - Store Purio in a cool and dry location.
- Always set Power button to Off and unplug Purio before cleaning.
- The motor is permanently lubricated and requires no oiling. Do not use gasoline, thinners, solvents or other chemicals for cleaning.
