In aanvulling op onderstaande stappen geven we je graag een aantal tips voor het beste resultaat en ter voorkoming van schade:

1. Gebruik een kleed om krassen te voorkomen.
2. Draai de bouten niet te hard aan. Geef enige druk, maar zet geen kracht.
3. Draai de onderdelen bij stap 6 en 7 eerst voor zo'n 80% aan.
4. Kijk vervolgens of de hoeken goed aansluiten (boven en onder).
5. Mocht een hoek niet goed aansluiten dan komt dat waarschijnlijk doordat bepaalde onderdelen steviger zijn aangedraaid dan andere.
6. Stel deze onderdelen door ze lossen en/of steviger vast te draaien, totdat de hoeken goed aansluiten en voor 100% aangedraaid zijn.
7. Voer stap 12 uit met 2 personen (omdraaien bed).
8. Kom je er niet uit? Neem gerust contact met ons op via support@studiosele.com, ook met je telefoonnummer en dan bellen we je zo snel mogelijk terug.
