HAIR SAMPLE

Place roots here.	Tape here.	Place the rest of the hair here. Coil if necessary or trim.
-------------------	------------	---

Sampling Instructions: We need 30-50 pulled mane or tail hairs with the root follicle attached. You may use either mane, tail, or both. Hairs must be pulled straight out to ensure follicles come out of the skin. It may be best to pull 5-10 hairs at a time rather than larger amounts. Fill the form completely and tape the hair sample to the paper with tape OR place hair in a small (sandwich) baggie.
