REPLENISH + ENHANCE RESILIENCE  
+ COOL REDNESS

A soothing and protective treatment to restore harmony and promote skin health. Includes Healite II LED session, the ultimate in the beauty toolkit, to rejuvenate the skin by activating the cellular recovery process.

Beginning with our Gentle Melt Cleansing Balm, a unique cleanser that melts into the skin, transforming into a milky emulsion. Chilled rose quartz mushrooms are incorporated into the massage to drain and gently massage reactive and sensitive skin. Our Bioactive Synergy Masque, rich in vitamins and antioxidants, further nourishes the complexion, followed by our Barrier Repair Serum, containing specific adaptogens for reactive and hormonal skin, promoting the repair process. The facial concludes with our Restorative Moisturiser. This treatment will aid in restoring skin resilience, reducing sensitivity, improving skin texture, soothing redness, and reducing irritation. Pregnancy safe.

### Healite II LED Therapy

Light Emitting Diode (LED) phototherapy is the technology behind the Healite II system.

The Healite II is currently one of the most advanced medical-grade LED-based skin therapy systems available today and uses low level light to rejuvenate the skin by activating the cellular recovery process.

Regardless of whether it's used as a standalone treatment or as part of a treatment plan, Healite II is capable of exceptional results. The high-quality LED lights deliver energy safely and evenly, protecting the surrounding tissue.

At Mukti Beauty Rooms, we recommend a series of Healite II treatments for clients who want to promote skin rejuvenation and healing or to enhance their treatment results.

Some of the proven benefits of Healite II sessions include an increase in collagen and elastin production, a reduction in fine lines and wrinkles, and improved skin tone and texture, resulting in smoother, youthful and more supple skin. An improvement and reduction in the appearance of poor skin tone, texture, pigmentation, and acne is just the foundation; treatments can also reduce pain, bruising and swelling following surgery or cosmetic procedures.

All skin types can benefit from Healite II sessions, without the need for downtime or the risk of complications.

For best results, sessions are recommended twice per week for a month, followed by maintenance.

#### OPTIMAL ADDITION

**Add Healite II LED session to any facial . . . . . +\$59**
