

# STAR★LUX HANDGUN LIGHT

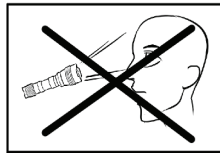

AND

# STAR★LUX PLUS HANDGUN LIGHT

WITH VISIBLE LASER

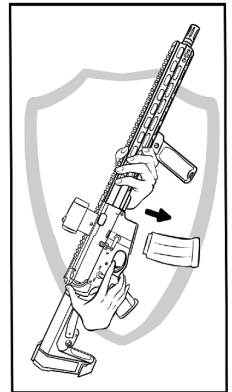

## OPERATING MANUAL

**Do not stare into beam**

**Fire, explosion,  
or burn hazard**

**Safety measures  
must be practiced  
at all times while  
handling a firearm**

**CAUTION:**  
LED RADIATION (RG-2)  
DO NOT STARE INTO THE BEAM.  
MAY BE HARMFUL TO EYES.

## IMPORTANT WARNINGS

CAUTION: The Star★Lux Handgun Light features a powerful beam that may cause the device to become uncomfortably warm when operated for an extended duration. The increased temperature does not present a burn hazard, and the device is safe to use in tactical situations, such as clearing rooms or checking for intruders, for short periods of time.

FAILURE TO READ AND FOLLOW THESE OPERATING INSTRUCTIONS AND WARNINGS WHEN HANDLING A FIREARM OR THE STAR★LUX HANDGUN LIGHT CAN BE DANGEROUS AND CAN RESULT IN SERIOUS INJURY, DAMAGE TO PROPERTY, OR DEATH.

- Use of a firearm under any circumstance may be dangerous. SERIOUS INJURY OR EVEN DEATH may result without proper training in the safe handling of firearms. Proper training should be obtained from an accredited firearms safety program conducted by competent, qualified instructors in the military, police academies, or National Rifle Association-affiliated instruction programs.
- Read your firearm's manual before attaching your gun-mounted light.
- Never point a firearm at something you are not willing to destroy. Thoroughly practice (employing safe training conditions) with the Star★Lux Handgun Light and firearm before using the weapon in a tactical situation.

BEFORE ATTACHING, INSPECTING, OR SERVICING A FIREARM-MOUNTED STAR★LUX HANDGUN LIGHT

1. Engage the safety on the firearm if applicable
2. Remove the magazine from the firearm if applicable
3. Open the action and inspect the chamber to be sure it is empty

IT IS IMPERATIVE THAT SAFETY MEASURES BE EMPLOYED AT ALL TIMES WHILE HANDLING THE FIREARM.

## BATTERY

WARNING: FIRE, EXPLOSION, BURN HAZARD

DO NOT: misuse, short-circuit, improperly store or discard, disassemble, or heat above 212°F (100°C).

Keep away from children.

## LED

CAUTION: LED radiation (RG-2)

Do not stare into beam.

May be harmful to eyes.

IEC 62471:2006

## LASER

Class 3R lasers are safe when handled carefully.

Do not look into the directed or reflected beam.

Avoid accidental exposure to eyes.

Do not aim at aircraft.

Can cause eye injury up to 110 ft (34 m) away.

## CONTENTS

- Star★Lux Handgun Light with MIL-STD-1913-compatible rail mount
- Magnetic USB-A charging cable
- hex wrench
- flathead screwdriver

## SPECIFICATIONS

- 1,500 lumens
- 100m beam distance
- IPX7 water resistance
- Multi-mode with quick-switch
- Quick-detach
- 2 hours runtime\*
- Machined aluminum alloy
- 128g/4.52oz

\*Runtime is defined as the amount of time between the initial switching of the flashlight and the decrease of brightness to 10% of the rated output on new batteries.

## BATTERY CHARGING

The Star★Lux Handgun Light should be fully charged before its first use. To charge the battery, attach the magnetic end of the USB charging cable to the port on the underside of the device. The charging cable may be left attached continuously with no risk of overcharge.

LED charge indicators

- Blinking: charging
- Solid: charged

## FLASHLIGHT MOUNTING/REMOVAL

MAKE SURE THAT THE FIREARM IS UNLOADED AND THE BREECH IS OPEN. IT IS IMPERATIVE THAT SAFETY MEASURES BE EMPLOYED AT ALL TIMES WHILE HANDLING THE FIREARM.

The Star★Lux Handgun Light is designed to be rapidly and securely attached to or detached from any MIL-STD-1913 (Picatinny) and most handgun rails without the use of tools. The included flathead screwdriver may be used to adjust the fit on initial setup. To mount the light onto a rail

1. Open the quick-detach latch.
2. Adjust the bracket to the position that fits the rail system on your handgun, then slide the clamps onto the rail. Use the included flathead screwdriver to loosen the clamps if necessary.
3. Close the quick-detach latch and check for fit and alignment. If needed, use the included flathead screwdriver to tighten the clamps, but only tighten enough so that the light can be unmounted and remounted with only engaging the quick-detach latch.

## VISIBLE LASER (Star★Lux Plus)

To sight the visible laser, use the included hex wrench to adjust the windage and elevation.

Windage: turn the windage screw to sight the visible laser left (clockwise) or right (counterclockwise).

Elevation: turn the elevation screw to sight the visible laser up (clockwise) or down (counterclockwise).

## GENERAL OPERATION

Press either of the ambidextrous ON/OFF switches to toggle the Star★Lux Handgun Light on or off.

The LED has three light settings that cycles in order from HIGH to STROBE to LOW. To cycle through the lighting modes, quickly press the ON/OFF switch within 0.5 seconds. The light will always default to HIGH after being turned off for longer than 0.5 seconds.

## MULTI-MODE WITH QUICK-SWITCH (Star★Lux Plus)

The Star★Lux Handgun Light features three modes that can be quickly switched between: LED (left), visible laser (right), LED + visible laser (center).

## MAINTENANCE

Use a soft cloth and mild detergent to clean the glass lens and keep it free of dirt and grime.

Note: Always avoid aggressive cleaning solutions.
