- Recommended by Health Care Professionals and trusted by women to soothe and relieve discomfort during sexual intercourse.
- No known side effects.
- Safe for use with silicone toys but not latex compatible.
- Not condom compatible
- Plant oils and butters condition skin, no need to wash off.
- Can be applied freely and generously, according to the body's needs.
- Can be used in showers, bathtubs and hot tubs (its long lasting)
- Certified Organic by the Soil Association (Bristol, UK), with 99% Certified Organic ingredients.

AH!YES OB is available in a range of tube sizes.

Directions for use:

AH!YES OB assists your love making by enabling penetration, increasing pleasurable glide and sensation. A rich, nourishing cream that liquefies into a smooth oil on skin, it is easy to dispense and distribute, and is designed for finger application, which allows you to decide how much you want to put where. Simply squeeze the cream on to your hand, warm it by rubbing between your fingers to

ensure a smooth velvety quality, and use your finger tips to apply the desired amount wherever you want it. (No applicator included). AH!YES OB is also perfect for massage.

Care note: AH!YES OB may occasionally present with a slightly grainy texture, which is easily remedied. Simply place tube in a sealed bag (don't forget to squeeze the air out of the bag before sealing) and immerse it in a mug of hot water, until it is completely liquid, shake to mix, then place in the refrigerator to cool quickly.

This will restore the perfect smoothness of the AH!YES OB texture. This is a function of using exclusively natural ingredients which are temperature sensitive. The product is perfectly safe to use.

Pleasure tip: Experience the Double Glide effect – apply a layer of WB on top of OB for a lasting and new dimension in love making.

Indications for use

AH!YES OB is a personal lubricant for vaginal and penile application, intended to moisturize and lubricate to enhance the ease and comfort of intimate sexual activity and supplement the body's natural lubrication. AH!YES OB is NOT compatible with natural rubber latex polyurethane or polyisoprene condoms.
