

- **Dustless Vacuum Blast**
- **Cyclone Separation & Filtration System**
- **No Protective Suit Needed**
- **Clean Work Environment**
- **Low Air Consumption**
- **Lightweight for easy mobility**
- **Simple to operate**

The Sandmaster Compact - Dustless Mobile pressure pot sandblasting unit is the ideal onsite sandblasting solution for businesses that want to perform sandblast engraving onsite and contain dust.

No need for full blasting suit or containment tent.

The lightweight, compact unit is a great mobile sandblasting solution for onsite stone, glass, tile and ceramic engraving. The dust reclaim system makes it environmentally friendly and clean to use. Abrasive is sucked into the vacuum as you blast.
