

HALFTONE MASK SALES SHEET

What we need...

- Any image can be used to create halftone mask
- Higher quality images will engrave better
- Don't reduce file sizes. *Emailing images can reduce image sizes*
- Surface information. *Colour of the stone, material*
- Will it be paint filled? *If so, what colour?*
- Size of the blasting area. *So we can determine the dot size and scale the image to right size to fit*
