# MESSAGE FROM OUR FAMILY

At Captiva Containers, we are proudly a family-owned company, where we specialize in providing exceptional and customized packaging solutions that fit your needs perfectly. From custom designs and standout printing options to eco-friendly alternatives, we are your partner at every step of the process. Our state-of-the-art facilities focus on plastic bottle manufacturing, meeting the highest standards of quality and efficient production.

**Thank you for trusting us to be a part of your brand.**

# QUALITY ASSURANCE

GMP Certified

Food Grade Safe

Full Traceability

Captiva manufactures food-contact safe products with FDA-approved raw materials. We operate in a clean, controlled environment on state-of-the-art equipment using only sterile oil-free high-pressure air with quality control procedures along all of our production lines. Proudly named Manufacturer of the Year 2022 by South Florida Manufacturers Association (SFMA).

LOOKING FOR SOMETHING UNIQUE?

# CUSTOM BOTTLE DEVELOPMENT

Bring us your  
**CONCEPT,**  
challenge us to  
**INNOVATE**

### STEP 1: DESIGN & ENGINEERING

Collaborate with Captiva's innovation team to share your concept ideas and turn your sketches and requirements into fully realized industrial designs.

### STEP 2: DEVELOPMENT & PROTOTYPING

Before commencing the initial product run, Captiva ensures comprehensive approval of 3D renderings and prototypes. We conduct a meticulous review of all design elements, including curves and embossments, to ensure precise dimensional compatibility.

### STEP 3: TOOLING PRODUCTION & VALIDATION

Captiva transforms your product concept into a shelf-ready reality with remarkable speed - often achieving a production run in as little as 6 weeks! Tooling costs are determined by the complexity of your design and mold requirements.

# DIGITAL PRINTING

Experience the freedom of unlimited color printing on square or milkman-shaped bottles. Simply provide your artwork in Illustrator format, and our in-house design team will seamlessly adapt your artwork to precisely fit the printing area of your selected bottles.

**What's more, with this cutting-edge printing service, there's no need for labels!**

Printing is done directly on the surface of the bottles. Plus, our quick turnaround time means that your printed order can be ready in as little as one week. Choose our unlimited color printing service for a sleek, professional look that will make your products stand out.

# SEND US YOUR LABELS

WE DO THE REST

## Streamline & simplify your operation!

We are the ultimate one-stop-shop! Say goodbye to the hassle of hand-applying your labels because we've got you covered.

**Our labeling service is compatible with all our product sizes and shapes, from 1 oz to 32 oz.**

Our production capabilities bring your product to life with ease. At Captiva, we understand that quality labeling is essential, which is why we carry a list of local and recommended label suppliers. With our comprehensive labeling service, your products will be professionally labeled and ready to hit the shelves in no time.

# rPET

(RECYCLED PET PLASTIC)

Embark on a sustainable journey with Captiva, where innovation meets responsibility! Our cutting-edge program is transforming the landscape of bottle production by introducing rPET content—recycled PET plastic. While rPET poses unique challenges, such as reduced transparency and increased processing complexity, we at Captiva thrive on challenges. We're not just creating bottles; we're crafting a sustainable future. These bottles, born from partially reclaimed recycled plastic, boast an enhanced carbon footprint, aligning with our commitment to fostering a circular economy. Join us in the pursuit of a greener, more sustainable tomorrow!

**Did you know?**

Using rPET **REDUCES GREEN HOUSE GAS** emissions by 71% when compared to using Virgin PET.

Recycling 1 ton of PET saves **1.5 TONS OF CO2 Emissions**. That is the same amount of CO2 released by the average car driving for 2.5 days non-stop.

**CAPTIVA**  
CONTAINERS

**REDUCE**  
**REUSE**  
**RECYCLE**

**RPET**  
(RECYCLED PET)

Improve your carbon footprint, reduce fossil fuel consumption and support advancing towards a circular economy where all plastics can be collected, reprocessed and reused. The circular economy is the ultimate vision for long-term sustainability: with rPet we can help make this a reality giving recycled PET an added value.

**IMPROVE YOUR  
SUSTAINABILITY**  
WITH OUR **ECO-CLEAR  
BOTTLES**

**Captiva's  
EcoClear  
additive bottles  
biodegrade  
30%  
faster**

# SUSTAINABILITY ECO-FRIENDLY

## ECO - CLEAR ADDITIVE

PET is a highly recyclable material that can be transformed into thousands of useful products. Despite the push for a circular economy, over 90% of plastic waste in the US still ends up in modern landfills.

Captiva has developed a highly responsible solution - the EcoClear additive. This additive has been extensively tested to ASTM standards and has been proven to biodegrade in landfill environments. PET plastic with the EcoClear additive decomposes thirty times faster than the same material without the additive, making it an essential component of responsible waste management.

The EcoClear additive seamlessly integrates with today's disposal infrastructure and converts into methane gas that is harvested in landfills, resulting in a net-positive for clean energy production. This breakthrough technology represents a significant advance in responsible waste management and allows Captiva to offer our customers an environmentally friendly option without compromising recyclability.

# TAMPER EVIDENT CLOSURES

With a wide range of neck finishes and cap colors to choose from, you can customize your bottles to create a unique and eye-catching look for your product. Let us help you find the perfect combination!

# FINDING THE RIGHT BOTTLE

At Captiva we pride ourselves on providing a comprehensive selection of PET bottles and containers. Ranging from just a few ounces up to a half gallon, and a variety of shapes including bullet round, square, milkman, and more. If you're looking for a particular size or shape that isn't listed in our catalog, don't hesitate to contact us. We also offer custom design services to help you create the perfect bottle or container for your specific needs.

# BULLET DBJ BOTTLES

Bullet round DBJ finish bottles are perfect for wrap-around labels. These bottles have a compatible neck finish with many readily available colorful closures, and are easy to cap. Ideal for ambient or cold fill juices, water, and more.

	CAPACITY (oz)	NECK FINISH	CASE Qty	PALLET Qty	ITEM CODE
