

Secure Windbreaks

SECURE
COVERS

Product Information

24/11/22

Secure Windbreaks protect livestock buildings and sheds from rain, wind, hail and snow, while still providing ventilation. Secure Windbreaks can provide permanent or temporary weather protection, ideal for sheds, buildings, equestrian centres and indoor arenas.

Secure Windbreaks can **reduce windspeed by up 75%** while still providing ventilation for livestock. Made from tough, **knitted HDPE**, Secure Windbreaks are built to last and are perfect for windy locations. Secure Windbreaks are fully adjustable to fit most size openings.

Secure Windbreaks are fitted between the uprights of farm buildings, and are secured in place using a simple hook and ratchet system. Secure Windbreaks are easy to install and you can quickly remove them if you need to.

Secure Windbreaks

Technical information

PROPERTIES	SPECIFICATIONS
Raw - material	HDPE LLPDE
Weaving construction	Interlocked knit
Weight	300 gsm
Thickness	1.4 mm
Thread	32 threads / 10 cm
Tensile strength	30 N/mm
UV Resistance	1000 KLy (minimum 10 years)
Wind resistance	75% reduction in wind speed

24/11/22

Green - high-strength - reusable Windbreak - 100% recyclable
