

## RTS TACTICAL BALLISTIC ARMOR WHITEBOARD PANEL

Available  
Size and  
Weight:

32" x 72"

36" x 72"

**Introducing the RTS Tactical Ballistic Whiteboard: a versatile, dual-purpose solution offering high-grade ballistic protection and practical whiteboard functionality. This innovative product is designed to shield against rifle and special threat ammunition, ideal for environments where safety is paramount.**

Ideal for airports, government buildings, schools, stadiums, and other security-sensitive areas, the RTS Tactical Bulletproof Whiteboard is a standout in safeguarding against projectiles and blast fragments.

Featuring easy installation and mobility, this Ballistic Panel Whiteboard can be swiftly moved and securely locked in place within any facility, thanks to its wheel-lock system.

This panel serves a dual function in classrooms, boardrooms, and training areas. It acts as an everyday whiteboard, and in emergencies, it transforms into a formidable ballistic barrier. Strategically placed by a classroom door, it can fortify the space against an active shooter, significantly enhancing safety.

At its core, the RTS Tactical panel boasts an NIJ Certified Level III+ Steel Armor Plate, capable of stopping 7.62mm and 5.56mm Green Tips, among other specialized threat ammunition. Each panel is coated with Encapsaloc, an advanced anti-ricochet and anti-spall material, significantly reducing the risk of collateral damage from ricochets and spalling.

### BALLISTIC PANEL FEATURES:

- Portable, heavy-duty wheeled panels offer mobile protection and can be securely locked into place.
