As an operator, whether law enforcement, military, private security or the average American, responding to tough, often dangerous situations goes with the territory. That's why you're there, it's your job. In this environment, you should never compromise when your safety is involved.

When the chips are down and you're called on to face and address the danger, you need to be fearless. There are things you, the operator can do that can give you peace of mind and confidence to be a fearless professional. Besides your training, the most important factor is to be confident in the quality of your armor and gear. That's why using armor that has saved the lives of our Law Enforcement personnel under fire is not optional, it is a requirement!

FEATURES:

UNPARALLELED MULTI-HIT CAPABILITY

Your RTS Tactical Ceramic Level IV Plate Is Constructed Out Of Small Squares Of Ceramic, By Constructing The Plate In That Manner, It Gives This Plate The Ability To Be A Multi-Hit Plate. If One Square Gets Shot The Rest Of The Level IV Plate Is Still Intact.

FREE FROM SPALLING

When It Comes To Our Level IV Ceramic Armor, Spalling Is Kept To The Bare Minimum Compared To Steel Which Would Need An Upgraded Spall Coating To Contain The Fragmentation.

DURABILITY

This Level IV Ceramic Plate Has A Waterproof Polyurea Coating Which Gives The Plate A Long-Lasting Ballistic Integrity, As Well As An Upgraded Foam Face Giving You Extra Protection In Case The Plate Were To Fall On The Ground.

STAND ALONE ARMOR

This Level IV Body Armor Insert Is Capable Of Stopping Multiple AP Rounds By Itself. Level IIIA Backing Panels Are Not Required.
