

KEEP FRESH
HEAT SEALING

1/ THE CHALLENGE

Keep Fresh!

Ensuring product freshness (and therefore keeping customers happy) continues to be a pain point in the cannabis industry, especially as it pertains to pre-rolls.

2/ OUR SOLUTION

KaceFresh HS - AUTO

Previous solutions have been incomplete. KacePack's solution provides a **perforated seal for each individual pre-roll**. A leader in the premium packaging space for the cannabis industry, KacePack has solved this issue by creating the KaceFresh HS AUTO.

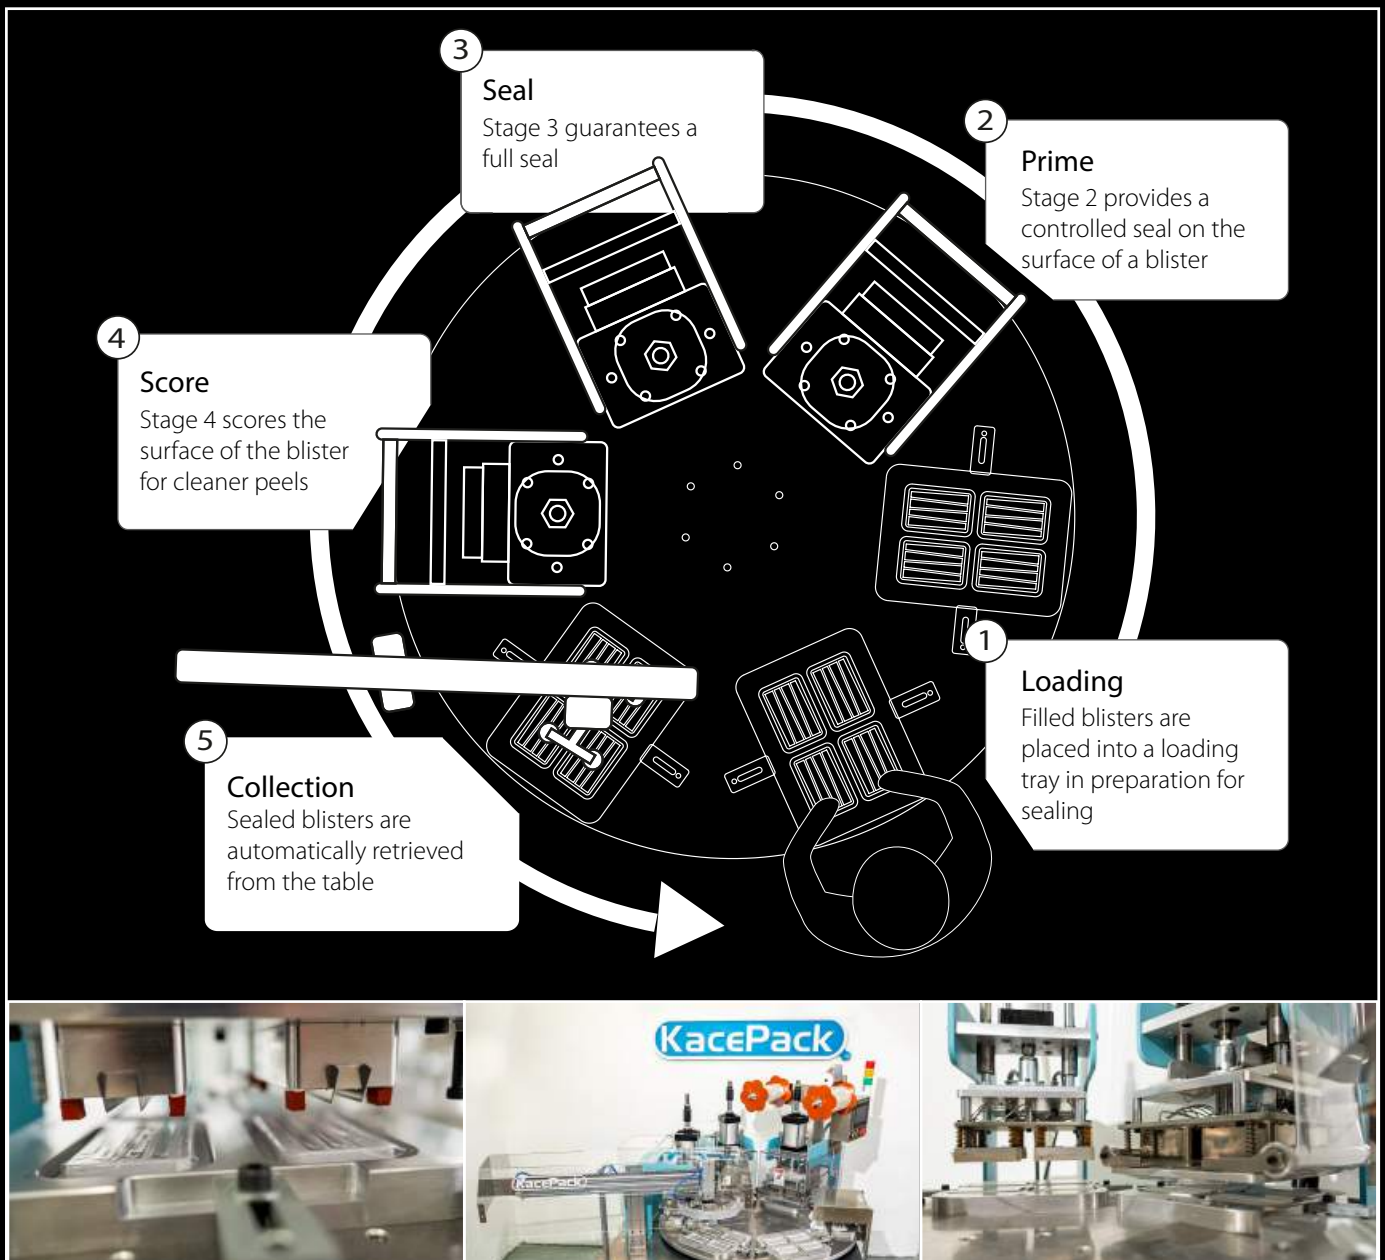

FEATURES

- Daily output of 16,000+ sealed blisters per 8 hour shift
- Single operator setup
- Air-tight sealing of each blister ensuring product freshness for each individual pre-roll
- Versatile blister options (single, pen, multi-packs, gem trays, etc.)
- Sealed blisters are compatible with KacePack's CR tins, boxes, and bags

3/ THE PROCESS

The KaceFresh HS AUTO integrates priming, sealing, and scoring into a single stand-alone station, manned by a single operator.
