

since 1950 **BOS**
homogenisers

**SPECIALIST IN THE FIELD
OF HOMOGENISERS**

www.boshomogenisers.com

Equipment.

Our MG Series offers a complete range of BOS high-pressure homogenisers and high pressure pumps; with pressures up to 1400 bar, and a choice of processing capacities from 20 litres per hour to 44,000 litres per hour.

You benefit with:

- Low water consumption
 - Low energy consumption
 - Easy access / maintenance
 - Well engineered design (ergonomic, hygienic, sturdy)
 - Longer machine lifecycle
 - Low operating cost / TCO
- Manufactured in the Netherlands following the highest standards

Spare parts.

With more than 15,000 items of spare parts and an extensive stock of cylinder blocks readily available. You can rely on us to provide you with the perfect fitting solution quickly and efficiently.

Genuine and OEM quality parts for APV/SPX/Gaulin, BOS Homogenisers and high pressure pumps.

Always in stock

- Common consumable parts
- Specialties
- Wide range of capital parts such as:
Cylinder blocks | eccentric shafts | bearings |
gear reductions

Services.

Rely on us to provide not only spare parts and machines, but also to provide the expert advice to maximize the productivity of your equipment. Alternatively, let us do the job for you. Our services include:

- Maintenance
- Repairs
- Refurbished equipment and parts
- Local support, worldwide
- Providing product training
- Sharing knowledge

Over 70 years of experience

With over 70 years of experience, knowledge and expertise our engineers are always ready to offer you the best solution for improving your operation.

Refurbished equipment.

In addition to supplying brand new homogenisers and high pressure pumps, BOS Homogenisers is also expert in refurbishing used equipment and spare parts.

- Overhauling old BOS homogenisers and high pressure pumps
- Overhauling homogenisers and high pressure pumps from other brands such as:
APV | SPX | Rannie | Gaulin
- Supplied as new, including warranty
- Renovating base, pulley drive and cylinder blocks

"We help keep our customers' homogenisation operations up, running and profitable."
