

FRESH, HEALTHY AIR EVERYWHERE

WHY ORIENT ELECTRIC AIR COOLERS?

Today, when the air pollution levels are breaking records every day, the home is our only safe haven. Therefore, we must ensure that the indoor air remains pure and healthy.

This is why, Orient Electric Air Coolers are designed to give you not just a cool breeze, but the air that is fresh and healthy. Unlike other air-cooling devices, these coolers ensure fresh air ventilation and not just the circulation of the same air. With revolutionary technologies like DenseNest Honeycomb for efficient water retention and premium AeroFan technology for the strongest air throw, Orient air coolers make summertime truly blissful.

Apart from this, these coolers feature futuristic technologies like IoT and Voice Control so that you can operate your cooler from anywhere. Now you can supercool your room even before you enter it.

A RANGE AS DIVERSE AS YOUR PREFERENCES

As the summers step in, we all crave that cool and fresh breeze from an air cooler. While the basic function remains the same, different customers have unique preferences when it comes to air coolers.

Orient Electric is a one-stop solution for your air cooling needs. We have a complete range of air coolers of all sizes, shapes, capacities, and features. Whichever cooler you choose, it's an Orient promise that your home will be filled with cool, fresh, and healthy air the moment you push that switch on.

SUPERCOOLER SERIES

Whatever the weather conditions, our Outdoor Air Coolers are built to deliver fresh and healthy air without any interruption. Protected with specialised powder coated GPSP sheets, these coolers can withstand extremely harsh weather conditions. Their new LockMatic™ Technology keeps the tank leak-proof and cool. The latest AeroFan Technology makes these coolers ideal for large and open spaces, where you can easily move them around on a trolley.

WINDOW COOLERS

The innovative Window Coolers are equipped with a myriad of features that make your life easier. Large water tank capacity ensures that you do not need to worry about repeatedly filling the cooler, just fill it and forget it for a long time. The advanced 4-way deflection system cools the room evenly. The combo of special Humidity Control and the Fragrance Chamber turns humid air into a fresh, healthy, and pleasantly cool breeze. The icing on the cake is that these coolers are built to consume less energy and save power.
