## UFH PARTS & DESIGN LTD MANIFOLD

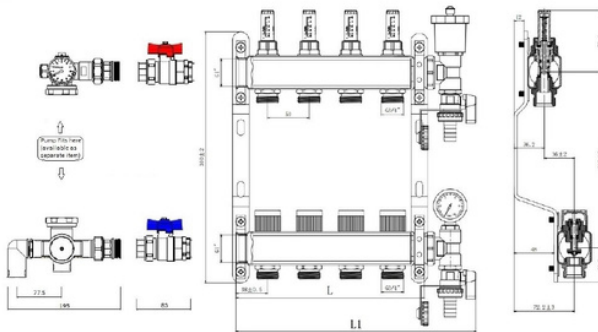

### UFH Parts & Design Ltd Manifolds

### Product Overview:

UFH Parts & Design Ltd Manifolds are high quality Stainless steel manifolds. They can support a underfloor heating system of up to 240m<sup>2</sup> when fed from a boiler. They are offered from 2 loops all the way up to 12 loops. They are pre-assembled and include all items show in above diagram. The connecons into the manifold are 3/4"

### Product Specificaon

Manifold Circuits	L(mm) *	L1 (mm) **
2	128	188
3	176	238
4	226	288
5	276	338
6	328	388
7	376	438
8	428	488
9	476	538
10	528	588
11	576	638
12	628	688

The balancing of the heang system is in compliance with BS EN1264-4. All flow meters can be conuoussly adjusted by simply rotang the glass tubes located at the top of the manifold.
