Tangram

The tangram is a creative and intellectual puzzle game with long history. It is thought to be originated in China during the Tang Dynasty. It comprises seven flat shapes: a square, a rhomboid, and five pieces of right triangles in different sizes. The goal of the puzzle game is to use all the seven pieces to produce the designated pattern. Observe and use your creativity and imagination to finish these puzzles. Let's try and form the patterns of alphabets, animals, pose and transportation as shown below!
