INTRODUCTION

High Efficiency Filtration System: This replacement filter contains multiple stage filtration system, which filters out 99.97% airborne harmful pollutants as small as 0.3 μm with 100% ozone free safe operation.

- 1. Preliminary Filter:** Captures large particles such as dust, pet dander and hair.
- 2. H13 True HEPA Filter:** High grade H13 True HEPA Filter traps fine particles such as PM2.5, dust mites, allergens, airborne bacteria, pollen, mould and other airborne contaminants as small as 0.3 μm
- 3. High-Efficiency Activated Carbon Filter:** adsorbs various odours and smokes such as cigarette smoke, fumes, cooking smell, pet odours, hazardous gases and VOCs.

HOW TO REPLACE THE FILTER?

The () will light up to remind you to replace the filter.

DO NOT wash or reuse the filter. Only use Arovec AV-P108-RF replacement filter when changing the filter is required. This will help your air purifier to work effectively and last longer.

Replacement filter is available at www.arovec.com.au

When to Replace the Filter

- It's best to change the filter every 3-4 months (2160 hours used). You may need to change the filter more often or less often, depending on how much you used your air purifier and on how much pollution is in the air.
- You don't need to wait for the () to turn ON for changing the filter. You may need to change the filter if you notice any of the following:
 - Increased noise from the air purifier when it is switched ON.
 - No effective difference in air quality.
 - Decreased airflow.
 - Unusual odours.
 - Clogged filter.

Steps for Replacing the Filter

Follow these steps to replace the filter:

1. Turn OFF and unplug the air purifier.
2. Turn the air purifier upside down on a soft cloth. [Figure 1]
3. Press down and turn the base cover anticlockwise. [Figure 1]
4. Remove the base cover. [Figure 2]
5. Remove the used filter from the air purifier. [Figure 2]

Figure 1

Figure 2

6. Clean any remaining dust or hair inside the air purifier with a vacuum cleaner or soft cloth. DO NOT use water or any liquids to clean the air purifier. [Figure 3]
7. Remove the new filter from its packaging. [Figure 4]

Figure 3

Figure 4

8. Place the new filter into the air purifier.
[Figure 5]

Figure 5

9. Put the base cover back on, press down and turn it clockwise to lock the cover. [Figure 6]

Resetting the Air Purifier After Filter Replacement

You need to reset the air purifier if the filter was replaced after the () light up:

- Turn ON the air purifier.
- Press and hold () with full thumb for 3-5 seconds.
- The () light should turn OFF, which indicates that the air purifier has been reset.
- You can use the air purifier with the new filter.

CLEANING & CARE

- Clean any remaining dust or hair inside the air purifier with a vacuum cleaner or soft cloth.
- DO NOT use water or any liquids to clean the air purifier. [Figure 7]

Figure 7

STORAGE

- If not using the air purifier for an extended period of time, it is a good idea to wrap the air purifier in plastic packaging and store in a dry place to avoid moisture damage.
- It is not recommended to store the used filter for long period of time.
- Store the air purifier in an upright position. Do not store anything on the top of air purifier.

DISPOSAL

To prevent possible harm to the environment or human health from uncontrolled waste disposal, separate the unneeded air purifier and its related accessories from other types of wastes. Ask your local council where to dispose of your air purifier and its related accessories. You should not throw your air purifier and its related accessories away with the daily normal household waste.
