## INTRODUCTION

**High Efficiency Filtration System:** This replacement filter contains multiple stage filtration system, which filters out 99.97% airborne harmful pollutants as small as  $0.3\mu\text{m}$  with 100% ozone free safe operation.

1. **Preliminary Filter:** Captures large particles such as dust, pet dander and hair.
2. **Korean H13 True HEPA Filter:** High grade H13 True HEPA Filter traps fine particles such as PM2.5, dust mites, allergens, airborne bacteria, pollen, mould and other airborne contaminants as small as  $0.3\mu\text{m}$ .
3. **High-Efficiency Activated Carbon Filter:** adsorbs various odours and smokes such as cigarette smoke, fumes, cooking smell, pet odours, hazardous gases and VOCs.

## PARTS NAME

1. Filter Pack
  - a. Preliminary Filter
  - b. H13 True HEPA Filter
  - c. Activated Carbon Filter

## REPLACING THE FILTER

The (  ) will light up to remind you to replace the filter.

DO NOT wash or reuse the filter. Only use Arovec AV-P500-RF replacement filter when changing the filter is required. This will help your air purifier to work effectively and last longer.

Replacement filter is available at [www.arovec.com.au](http://www.arovec.com.au)

### When to Replace the Filter:

- It's best to change the filter every 4-5 months (3000 hours used). You may need to change the filter more often or less often, depending on how much you use your air purifier and on how much pollution is in the air.
- You don't need to wait for the (  ) to turn ON for changing the filter. You may need to change the filter if you notice any of the following:
  - Increased noise from the air purifier when it is switched ON.
  - No effective difference in air quality.
  - Decreased airflow.
  - Unusual odours.
  - Clogged filter.

## Steps for Replacing the Filter:

Follow these steps to replace the filter:

1. Turn OFF and unplug the air purifier. Place the air purifier on a stable surface in an upright position. Turn the base lock button to the left to unlock the base cover. *[Figure 1.1]*
2. Hold the air purifier and lift it up carefully. Remove the used filter from the air purifier. *[Figure 1.2]*

Figure 1.1

Figure 1.2

3. Clean any remaining dust or hair inside the air purifier with a vacuum cleaner. DO NOT use water or any liquids to clean the air purifier.
4. Remove the new filter from its packaging. *[Figure 1.3]*

Figure 1.3

5. Put the new filter and set the air purifier on the base. [Figure 1.4]

Figure 1.4

6. Turn the base lock button to the right to lock the base cover. [Figure 1.5]

Figure 1.5

#### Resetting the Air Purifier After Filter Replacement:

- Turn ON the air purifier.
- Press and hold (  ) for 3-5 seconds.
- The (  ) light should turn OFF, which indicates that the air purifier has been reset.
- You can use the air purifier with the new filter.

## CLEANING & CARE

- Turn OFF and unplug the air purifier before you clean it.
- Wipe down the outside of air purifier regularly with a soft and clean cloth.
- **DO NOT** use any harsh cleaning agents e.g., bleach or alcohol to clean any part of the air purifier.

### Cleaning the filter

- To increase the efficiency and life of the filter, clean it at least once a month using a soft brush or vacuum cleaner to remove large particles, hair and dust. Do not clean the filter with water or any other liquids. [Figure 2.1]

Figure 2.1

## STORAGE

It is not recommended to store used filters for a long period of time.

## DISPOSAL

To properly dispose of a used air filter:

1. Turn off the air purifier and unplug from power source.
2. Prepare a plastic bag, remove the used filter, and put inside the bag.
3. Secure the bag with a tie or tape to keep the dust and particulates from being released into the air.
4. Place the bagged air filter in a garbage can or dumpster outdoors.

**Note:** Ask your local council regarding any update or safe disposal of your used air filters.
